GOOD MAN IS CALLED HOME

Mr. William A. Sutton, Highly Respected Citizen, Is Called to Last Reward.

On Friday, Nov. 23rd, at 12:15 o'clock, W. A. Sutton, one of our very best citizens, departed this life after a lingering illness of many months from cancer in the left hip joint. Mr. Sutton had been troubled with this limb for several years but not until in the early part of the summer did it give him severe pain. It was in August past that he, accompanied by his devoted wife, went to Martinsville, Ind., where he sought relief. Failing in this he was treated by local physicians, who thought there was a cancer in the afflicted joint. A specialist was summoned from Louisville and confirmed this opinion. Later Mr. Sutton was taken to Lexington, where the X-ray showed the trouble but not to the extent that satisfied the physicians. Mr. Sutton continued to grow worse and was taken to Louisville and under the most powerful X-ray the dread malady was discovered and the consulting physicians with local physicians realized that dissolution was fast approaching. He would have been taken as a last resort to Baltimore in order to receive the Radium treatment, but was too weak to make the trip. The disease progressed rapidly, his blood took up the poison and the once strong man yielded to the inevitable.

Mr. Sutton was born in Fleming county, Nov. 25, 1855, and was the son of Thomas P. and Celia Gooding Sutton. He was married in December, 1882, to Miss Lizzie Britton, of Clark county, and this union was blessed by two sons, Thomas P., of this city, and Brantton, of Bradenton, Fla. The mother and sons with one brother, A. W. Sutton, of Seattle, Wash., and two sisters, Mrs. Charles Ross, of Fleming county, and Mrs. Mary Sowards, of Kansas City, Mo., survive him.

Mr. Sutton with his family came to this county, March, 1883, and to this city in the fall of same year, and engaged in the furniture business, first as Sutton & Smith, then W. A. Sutton, later as Sutton & Harris, and at the time of his death as Sutton & Son.

He was a deacon and trustee of the Mt. Sterling Baptist church, having joined under the pastorate of Dr. E. E. Bomar, twenty-one years ago. He had been a member of the City Council, was one of the charter stockholders of the Ken-

tucky Baptist, now The Baptist World, a denominational paper of high rank, published under the editorship of the Faculty of the Southern Baptist Theological Seminary. He was for many years past and to the day of his death a trustee of Georgetown College. For educational and religious causes Mr. Sutton was a most liberal contributor, which is verified by such contributions as \$2,500 for the building of the new Baptist church here, \$1,000 to the endowment fund of Georgetown College, as much to the endowment fund of the Southern Baptist Theological Seminary and other sums to other objects as they appealed to him.

The writer of this notice remembers his devotion to that sainted and master theologian, Rev. Cleon Keys, who when overtaken by the infirmities of age, Mr. Sutton saw that his necessities were provided for. His gifts were expressions from a prompting heart. By W. A. Sutton's passing the city and county, the Baptist church, all religious and moral institutions, the fraternal orders with which he affiliated, notably the Knights Templars, sustain a distinct loss. Those who were closest to him well know he contended for his convictions. He was honest, he was courageous and nothing could swerve him from what he believed to be his duty. Optimistic he believed "that behind the clouds is the sun still shining." He admired and honored the good in men and possessed a high ideal of personal honor and integrity. His word was as good as his bond.

In the walks of life, in the church, the fraternal societies, wherever he had been active, we are going to miss William Sutton, but this is naught as compared with the home. He loved his home, he loved his family, and every act as long as reason was enthroned, even to the passing moment, did he manifest love for his own.

With his passing a loving, considerate husband, a fond and caretaking parent, a loyal, patriotic citizen has fallen, and if we would we could not forget the estimable citizen, the model man, the Christian citizen and gentleman that he was. Were a star plucked from high, For ages would it light, Shining down from the sky, Beam on our mortal light; So when a good man dies, But ages beyond his ken, The light he leaves behind Shines upon the paths of men."

Funeral services were conducted at the Baptist church Sunday afternoon at 2:00 o'clock by Pastor Rev. J. S. Wilson, assisted by Rev. B. W. Trimble, of the Christian church, and Rev. M. V. P. Yeaman, of the Presbyterian church, and his body was laid to rest in Machpelah cemetery beneath a perfect blanket of flowers to await the coming of Him in whom he believed. Peace to his ashes.

GOAL HAS BEEN PASSED

Y. M. C. A. Workers Have More Than Raised Montgomery County's Apportionment.

Mr. Pierce Winn, Treasurer of the local Y. M. C. A. fund, reports that Montgomery county has more than subscribed her apportionment toward the funds for the boys in the camps and trenches. This county was apportioned \$3,500.00 and Mr. Winn has received \$3,599.25 toward the fund, of this amount \$2,967.25 has been paid in cash the balance in pledges. In addition to the above, Prof. L. H. Barnes, chairman of the Boys' Committee of the High School, reports that the boys have agreed to raise something over \$400.00, which will put the total amount subscribed over \$4,000.00. Considering the size and wealth of our county we think this is a remarkable showing. The rich county of Clark adjoining us was only allotted \$4,000.00 and when the campaign ended that amount had not been subscribed but the committee in charge agreed to either raise the difference or put it up themselves.

Miss Dora Robinson has accepted a position as individual bookkeeper at the Exchange Bank and has assumed her duties. Miss Robinson is a competent young woman and will make the bank a valuable employee. Mr. Dyke Duty, who has been connected with the bank for several weeks, has resigned to take a position at the C. & O. depot. Mr. R. H. Lane, who has been at Ft. Benjamin Harrison, will again be associated with the bank.

WILL ERECT REGISTER

One of the most commendable and appropriate projects that has come to our attention during Montgomery county's participation in the world war is that being fostered by the local organizations of the Red Cross and the Red Triangle for the erection of a memorial register across the front of the Court House, on which will be recorded the name, address and rank of every Montgomery boy in the service.

This huge register will be fitted with sockets in which will work movable name plates bearing the name of the enlisted man, followed by a number, the key to which shows the address and rank.

The promotions in rank will be prominently displayed from time to time and by means of this board you can follow the progress of Montgomery county's representatives through "No Man's Land" and on to Berlin. Then too, from time to time, some of these names must be removed and placed in the roster of those "Gone West" who did their bit in making the world "safe for Democracy." This is one of the horrors of this conflict which fortunately we have not had brought home to us so far but which will surely come sooner or later.

Let us get together and erect this testimonial of interest and pride in the sacrifices our best boys are making before it is too late for them to know and appreciate it. The success of this project depends entirely upon the generosity of those solicited for its erection.

Every man, woman and child in Montgomery county should feel a pride in being ALLOWED to contribute to such a fund.

To properly erect the proposed register will cost approximately \$200; you will be approached on this matter in a few days, and you will be given only the one opportunity of contributing. How much will you give when called upon?

POSITIONS OPEN

The local Exemption Board will begin December 15th, have a position of Chief Clerk at a salary of \$100.00 per month. Must be familiar with shorthand and typewriting. An assistant's place paying \$80.00 per month will also be open.

COAL FAMINE IS ON HERE

Local Dealers Have Had Orders Placed for Weeks and Shipments Promised.

With the gas pressure low and not a single coal dealer with any coal on hand, many people in this city, unless the condition is relieved quickly, will soon be suffering. A representative of this paper was informed that orders had been placed for many weeks, in fact, some dealers have standing orders for a certain number of cars per month beginning early in the fall, but owing to the coal shortage, etc., it has been impossible to secure same, although it is reported several cars are in transit.

On Monday morning this paper wired Hon. Wiley B. Bryan, State Fuel Administrator, as follows:

"It is imperative that immediate steps be taken to relieve coal famine here. Not a bushel in the yards. Gas pressure low."

LATER—Mr. L. F. Tabb, the local coal dealer, secured one car of coal late Monday and is distributing same. Mr. Tabb and the other dealers are making every effort to relieve the situation.

C. & O. Agent J. C. McNeal called the Yard Master at Ashland and has his promise of getting four cars out of the yards there that are filled to this city, at the earliest possible moment.

The following letter was received today from the Federal Fuel Administrator:

"Louisville, Ky., Nov. 26, 1917
Mt. Sterling Advocate,
Mt. Sterling, Ky."

"Gentlemen:

"On receipt of your telegram, we wired Mr. Stanley Wood, Chairman Federal Fuel Committee for Montgomery county, requesting him to send in a report from the dealers, indicating the amount of coal ordered, and from whom.

"Upon receipt of this information, this office will use its best efforts towards securing relief for Mt. Sterling. The condition throughout the State is similar to that as indicated in Mt. Sterling, the demand being greater than the supply, possibly available.

"Please rest assured that every effort will be made to relieve the situation, at the earliest possible moment.

"Yours very truly,
W. B. BRYAN,
Fed. Fuel Administrator, Ky."

A NOTE TO THE PUBLIC

We have been in charge of The Tabb Theatre for two years and have tried during this entire time to bring The Shannon Stock Company to Mt. Sterling for an engagement. We are glad to announce that we have succeeded at last in doing so and are pleased to announce a week's engagement of this popular company, beginning Monday, December 3rd. They boast a company of twenty-five people including a special band and orchestra. There are a number of people who will remember this company from a previous visit to Mt. Sterling and how well they pleased the patrons. We are ready to stake the reputation we have endeavored to make in the show business, on this company's ability to please. They are featuring Miss Hazel Shannon and Harry Shannon, Jr. A complete change of program will be rendered each evening and high-class vaudeville between acts. Special scenery for all shows. Seats on sale Thursday morning, Nov. 29th, at Land & Priest, Druggists. Popular prices will prevail for this engagement—15, 25 and 35 cents. Get seats early.

Respectfully,
Lewis A. Judy & Marvin N. Gay

OUR BOYS GET COMMISSIONS

Mt. Sterling should be proud of the showing of the boys from this city who have been in training in the Second Officers' Reserve Training Camp at Fort Benjamin Harrison, as four out of seven secured commissions and one was recommended for a place in the Quartermaster's department, and the other two it is understood will receive calls later. Mr. R. E. Toms was made Captain in the Engineering Corps; C. T. Coleman, 1st Lieutenant; Harry Winn Lockridge, 2nd Lieutenant; O. W. McGuire, 2nd Lieutenant. Mr. R. H. Lane, who secured a mark of 95 in the mental examination, will be appointed to the Quartermaster's department shortly.

52 ACRES OF FINE HINKSTON LAND

lying on the Maysville pike, 2 miles from Mt. Sterling, adjoining the lands of W. A. Sutton and Mrs. Rich Wilson. A good portion of the land is in grass and timothy, a good acreage in rye and balance for oats. On the farm is a good six acre tobacco barn and the farm is well fenced and well watered. This is an ideal location for a nice residence and being close to the city on the Maysville pike and in a good neighborhood the farm will rapidly increase in value. The farm will pay 10 per cent interest on the investment and one can find enough tobacco land to fill the barn every year. This is Hinkston land, "nuf ced."

This is a rare chance to buy a small place close to the city and one that will make the purchaser a good investment. Terms will be one-fourth cash, and the balance in three equal yearly installments bearing 6 per cent interest and secured by lien on the property. If you want a desirable piece of land this is your chance. See me

FARM OWNER REFUSES PROFIT

Harris & Speaks, of Paris, and R. L. Stewart, of this city, offered the Harry Mitchell farm on the Grassy Lick and Sideview pike, in this county, at public auction last Thursday at the courthouse door.

The farm, which contains 82 1/2 acres, was bid to \$173 per acre and withdrawn, the owner refusing to take the price. The farm is nearly all in grass. It was pur-
chased by Mr. Mitchell several weeks ago from J. M. Henry at \$157 an acre.

AND SHALL WE YET THANK HIM?

The season is again with us when, from custom and from the inner promptings of the spirit, we are wont to lift grateful hearts to a merciful and bountiful Creator in thanks and gratitude for His dealing with us during the year that is past.

And shall we yet thank Him? Let us see.

At this same season one short year ago we thanked Him from full hearts that He had kept us from the madness that was devastating our kinsmen across the waters. But today we have beaten the pruning hook into a sword, and from ocean to ocean the trump of armed forces resounds.

In view of the staggering issues with which our people are faced to face, are we to content ourselves with thanking an all-powerful God for life and health and plenty—material plenty? Are we to look no further than the mere creature comforts with which He has so bountifully showered us?

Some may answer, "For what else should we thank Him? Has not the madness fallen upon us, too? Are not our young men thronging to the sacrifice, and are not our wives and mothers and sisters and brothers and fathers, with bleeding hearts, helping them on their way?"

Again, let us see.

A century and a half has flown since a band of consecrated men, with vision that reached out far into the future, determined that on this our loved soil should be reared an edifice such as the world had never before witnessed—a nation wherein should reign that immortal trinity of human beatitudes, Freedom, Equality, Justice. To this they dedicated unselfish lives, for this they fought, and for this fought, and for this they died. But their lives and their deaths and their unselfish sacrifices prevailed, and today that edifice stands the wonder of earth—a land grounded and built on the eternal principles that guarantee to one and all the right to "life, liberty and the pursuit of happiness."

But these "beneficent" principles are not all-prevailing. In other lands are forces that would set them at naught and make of their advocates, serfs and vassals, as were our fathers before us.

Can we, then, think an All-Father that our fathers left to us an inheritance of Freedom that we must now defend with our lives and our all?

Let us suppose that our hearts could not feel this gratitude—what then? Suppose us a people, descended from heroes with whom the glorious vision of a free earth far outweighed any thought of self—we, the children of those heroes, willing, like Esau of old, to barter our glorious heritage for a mess of pottage of ease; willing to submit to degradation, so our selfish enjoyment of the creature comforts be not interfered with.

But what red-blooded American could entertain the thought?

People of America, let us raise one mighty shout of gratitude to Almighty God that when the hour of our testing came, it found us

MODERN HOME AND EXCELLENT BUILDING LOT At Public Sale

As Agent for Mr. Lewis G. Howard, I will offer for sale on the premises on the corner of Locust and Sycamore street in Mt. Sterling, Ky., at the hour of 2 o'clock p. m., on

Saturday, Dec. 1, 1917

his modern two-story frame residence and a building lot in the rear of same. The property will first be offered separately and then as a whole.

The residence lot, which fronts about 50 feet on Locust street and runs about 100 feet on Sycamore street, contains the modern two-story house in which there are 14 rooms, four halls, a nice bathroom, and in each of the ten rooms will be found a large closet. The rooms are large and well ventilated, and the entire house is built out of the very best material. The inside finish for the larger part of the first floor is of hardwood, and the staircase is one of the prettiest and best to be found in the city or in any home. There are cabinet mantels in nine of the rooms and over the doors of the first floor, the outside doors, will be found the soft light windows. The house is heated by gas and lighted by electricity, with places for the gas for lighting in the event that gas was desired for that purpose. All chimneys are of large size and were built especially for the use of coal and they can be instantly changed from gas to coal with practically no expense. The house is built upon a foundation of limestone rock and the foundation is about twenty inches wide. Under the house is a cellar with three apartments that are always dry and nothing ever freezes in it. One apartment is used for a laundry room and is fitted with gas heating and electricity for lighting. The roof of the residence is in good shape and the entire home in excellent repair. In the rear of the residence is a first-class cistern, and there is some fruit on the lot. No roof or surface water stays on the premises as the home is surrounded with sewer connections which carries off all rainfall.

The building lot in the rear of the residence and fronting on Sycamore street is about 70 feet wide on Sycamore street running down to the Whitehall Warehouse and is 50 feet deep. There is an alley way running by the side of the lot on the lower side adjoining the warehouse shed. This alley way belongs to the lot. This lot is very valuable and desirable.

No more desirable residence is to be found in Mt. Sterling for sale and the property can be used as a home or leased for a boarding house at a good monthly rental. Mr. Howard at one time offered \$50.00 per month for this property. This home cannot be built now for \$5,000, and if you are looking for a bargain the best opportunity that you have ever had now confronts you.

Come and look this property over and buy you a home as well as a place that will always bring you in a good rental income. Terms will be made known on day of sale.

Remember the day and date, Saturday, December 1st, 1 p. m.

Mr. L. G. Howard or the undersigned will be pleased to show the property to any prospective purchasers.

INTERESTING LETTER FROM LOCAL SOLDIER BOY

The following letter from Isaac Rogers, Jr., now stationed at Camp Shelby, Hattiesburg, Miss., is very interesting, and we feel sure will be enjoyed by our readers:

Camp Shelby, Nov. 17, 1917.
Advocate Publishing Co.
Mt. Sterling, Ky.
Gentlemen:

Just a few lines to say a few words about the pleasure I get from your paper down here in Camp. My sister (Miss Ola Rogers) gave me a subscription to your paper when I enlisted over seven months ago and it sure has been pleasure to me to receive it weekly ever since it brings home so much closer and dearer to me on Saturday mornings to receive it.

We are all very well satisfied with our new camp although it is very hot and dusty here now as this is the dry season of the year. Wish so many of the boys that are staying out of the Army could only be here with us to take the hikes and physical drill we are taking, for they would never regret it.

We have some very interesting skirmishes and sham battles, and trench digging, we are now digging one under pretended shrapnel fire and is very interesting and amusing to see some of the large fellows try to crawl on their sides under cover to the trench. I am sure that if a good many of the boys would try the Army for awhile instead of trying to marry and keep a wife while every thing is so high they would come back better prepared to do so than now.

We also enjoy frequent trips thru the cotton fields and mills, also the sugar mills.

There is about 30,000 acres in the reservation and about 30,000 boys encamped here.

It stays very warm here until the wind blows from the Gulf which is very cooling and a delight for us when it does so.

There are several places of amusement here, and best of all the encouraging work of the Y. M. C. A. which is a friend to all in Khaki, big little, old and young alike, and I see where they are wanting to put one in Mt. Sterling and I only hope that the big hearted men of the town will open their hearts and pocket books, for the sake of the younger boys.

I am now connected with Cissin Co. No. 1, 113 Ammunition Train, under Captain Robert Cain of Louisville. 1st Lieutenant Frank S. Wright of Shelbyville and 2nd Lieutenant Dan Young of Lexington, in the 1st battalion under Major Thompson B. Short of Lexington and no one could wish for better officers. Dr. A. J. Harness, is 1st Lieutenant of the M. C. of this Regiment of whom every one in Mt. Sterling, I am sure knows is a splendid man.

We all work together for we are all for the Red, White and Blue and after "Kaiser Bill" and with Gods help we will get him.

Our Company slogan is and can be heard most any time.

"What made you join the Army

And some time a guard mount or

Don't bust at the cooks and the

For you are fighting for the Red,

Would love to hear from every

SELLS STOFER PROPERTY

Master / Commissioner W. A. Samuels sold last week property belonging to the estate of the late Mrs. Richard Stofer. The residence property on West Main street, occupied by Mrs. Effie Tharp, was purchased by G. H. Strother, for a price around \$6,600, while two small tracts of land in the county brought \$1,250 and \$1,650 respectively. Mr. Strother will use the rem of the lot upon which the residence is situated for an extension of the Strother Motors Company's garage, which he expects to make the largest in the city, while Mrs. Tharp will continue to occupy the residence, where she conducts a boarding house.

A Fair Warning to Taxpayers.

I am now making my last collection of taxes. It will be necessary for me to make a prompt settlement with the State, County and School Board. Penalty will be added after Nov. 30th, and the property will be advertised very shortly afterwards. Heretofore I have put off advertising as long as possible but this time I cannot do so, as my office as Sheriff expires the first Monday in January, 1918. DUTY OF LAWYERS UNDER SELECTIVE DRAFT

Some months ago we took occasion to say that it was our belief that the members of the bar should render, without compensation, all possible assistance to men coming within the draft in preparing their exemption papers and generally giving them proper legal advice as to their rights under the selective draft act. This duty, under the new Questionnaire becomes more important than heretofore, as few lawyers, without legal assistance, could properly fill out the elaborate blanks to be mailed, in the near future, to all registrants.

The Provost Marshal General E. H. Crowder, himself a distinguished lawyer, has just issued a new set of regulations wherein he says:

"The selection and classification of men for military service is an undertaking that should be regarded as a systematized effort of the citizenry of the whole nation organized and compacted to meet the present emergency. Every citizen has a duty to give his best endeavors to the success of this undertaking according to his qualifications and talents. All lawyers should regard it as their duty to identify themselves with the Advisory Boards provided for in sections 44 and 45 and freely and without compensation to give their best service to the nation. It is inconsistent with their duty for lawyers to seek clients for the purpose of urging and advocating individual cases in any other way than as disinterested and impartial assistants of the Selective Service System."

BIG TOBACCO SALE

Gorin Bros., of Louisville, last week closed a deal with the American Tobacco Co. and sold them 950,000 pounds of last year's tobacco at 30 cents per pound. This tobacco was bought during the latter part of last year over the loose leaf floors of this state and Ohio and redried, and it is claimed that the tobacco was not of the best grade by any means. Old dark tobacco was sold by the same company for 18½ cents per pound. In conversation with a local tobacco man who claimed to have seen some of the above 30-cent tobacco we were informed that if that tobacco was worth 30 cents then the best grade here should be worth 40 cents or more. The writer has heard of an offer being made for one barn in this county of forty cents and several at thirty-five cents.

Attention, Farmers and Growers.

We wish to correct the report that has been and is still being circulated that our house will not sell tobacco over our floors this season. This report is incorrect as we expect to conduct our sales this year just as we have in years past and hope to sell more tobacco this year than we have ever sold.

We trust that our friends will remember this and correct any statement to the contrary whenever or wherever heard.

Bring us your tobacco and get the same fair treatment and square dealing you have always received. House now open to receive tobacco for first sale, December 4th.

IN MEMORY OF

Mrs. James Clay, Who Crossed the Great Divide Oct. 22, 1917.

The subject of this notice was a daughter of J. F. and Susie T. Knapp, was born Oct. 12, 1884, at Hamberg, N. Y., came with her parents to Morehead in 1890; was graduated from the Morehead Normal School in 1902; was married to Mr. James Clay June 27, 1905, died Oct. 22, 1917 and is survived by her sorrow-stricken husband and three young children, John, Richard and Marjorie, the latter the youngest, an infant of nine months. The funeral services were conducted by Bishop Lewis U. Burton, of the Lexington diocese at Morehead, and the remains were brought to Mt. Sterling and buried in Machpelah cemetery after services at the grave by Rev. H. M. Easter, pastor of the Baptist church, at Morehead.

Of this good woman, loyal to the home of her adoption, devoted to husband, loving to children and true to neighbors and friends we could not say too much. The friends at Morehead, the officials of the C. & O. R. R., the associates in the clubs of which deceased was a member, the Circuit Court at Mt. Sterling by their acts have spoken and should we undertake to add words expressing thoughts more forceful they would fail us. A woman of grace, a wife of devotion, a mother with tenderest care, a daughter of obedience and affection, a friend and neighbor in its literal sense was she. Could we say more? Yes, she was a leader in deeds ennobling, a Christian character, too good for earth and has been taken to the home prepared where she is freed from all that's mortal to dwell with Him whom she delighted to serve. The tear-dimmed eyes, the floral offerings, the pathetic expressions all have evidences of the sweet woman that she was missed in the home. Oh, how much words can not express, for a woman of love has departed. She is missed in the clubs of which she was a member, that imparted lofty ideals. She is missed in the religious circles where she was wont to praise Him and to lead others on but this is not like unto the vacant chair, the hushed voice, the love dead in the home. We could write more, yet volumes would not express the more of sweet Christian graces. We tender the deepest sympathy to him whose burdens are heaviest and pray God to guard, lead and bring the little ones up in the fear and admonition of Our Father. Truly it can be said of her, that the world is better for her having lived in it and the exemplary life she lead will leave its impress on the lives of many.

Soldiers' and Sailors' Government Insurance

To "Our Boys" at the Front, in Camp and on their way:

You have all, of course, at one time or another been solicited for insurance by some representative from this office. Some of you are policy holders while others, when solicited, "put it off awhile."

Be that as it may the fact that you gave us an audience makes me appreciative and I want to take this means of giving you some advice, insurancewise, to which I feel you are entitled.

It has come to my attention that some of the companies still have agents in the various camps soliciting insurance, especially among the officers; for which an extra premium is charged, or covers for a reduced amount, "playing up" the NEED for the insurance but not comparing; as they should, with the new protection offered by the Government.

Now, this Government "policy" I have studied quite a good deal; it offers you protection that NO PRIVATE CORPORATION COULD POSSIBLY AFFORD TO SELL YOU AT THE PRICE. It is quite complicated but offers as complete protection as it would be possible for you to obtain. I want to urge that you make your immediate application for the maximum amount you can afford to carry. It is due you and those dependent upon you that you do this and while, of course, it is of no benefit to this office I feel in giving this advice, gathered from quite a good deal of study, I am, in a way, "doing my bit" in making such a recommendation.

To the Wives, Mothers, Fathers and Brothers:

Let me urge that you, in your next letter—if YOUR "boy" does not take the "home paper" and have the advantage of seeing this—that you clip and mail to him insisting that he give the immediate attention it deserves. My hope is with yours—that he may never have a claim to file—but it is a duty he owes himself, to you and his country that, SHOULD he be among the unfortunate, he would have made this provision so generously offered by the Government.

Very respectfully,

H. G. HOFFMAN

Twinkle, twinkle, electric light,
You go out most every night;
The service here is on the bum,
Although Manager Redmond has

We suggested that the Council hold

For the service will be improved in

And surely most any kind would

While the big corporation continues

TOBACCO ON THE BOOM

Tobacco experts are forecasting
record-breaking prices throughout
the Kentucky markets this year as
a result of the opening day's sale
on the Burley market at Horse
Cave, Monday, when 42,800 pounds
of tobacco was sold at a general
average of \$28.40 a hundred.

The lowest price of the entire
day was 26 cents, while some of the
better classes brought as high as
60 cents. A big percentage of the
sales ranged 40 to 47 cents, the
\$28.40 being a general average of
the entire sales of the day.

In view of the fact that the quality
of tobacco grown in that section
is inferior to that grown in the
Bluegrass region, it may be deducted
from the above price what may
be expected on the Mt. Sterling
market when the latter opens.

It is understood here that Clarence
Lebus, who purchased several
thousand pounds of tobacco recently
in Harrison county for 40 cents,
has refused 42½ cents for the
same crop.

ADVICE FOR OUR SOLDIER

(Passages From a Letter Written by
Judge E. Rockwood Hoar to His
Son, Samuel Hoar, Who Had
Just Started for the Civil
War)

The extracts printed below, from a letter written by an eminent Massachusetts Judge to his soldier son, are now being sent by the United States Government to men nowly drafted for the National Army and to volunteers, in the hope that it will serve as an inspiration to them in the struggle against Germany.

Concord, Mass., Dec. 15, 1862.

My Dear Boy:

I did not have the opportunity I had hoped to talk with you last evening—and, therefore, take this opportunity, when we are sending you your mittens and the envelopes which you forgot, to give you a few last words of affectionate counsel from home. One of your first duties as a soldier will be to take all the care you can of your health. The fitter that is, the better you will be able to do any service, or undergo any fatigue, required of you. To preserve your health, you must try to lead as regular and temperate a life as is possible. I hope you will not try to avoid your full share of labor, danger, or exposure, where either is necessary or called for. Take every proper occasion for bathing your whole body—and scrupulously regard your personal cleanliness, no matter how much trouble it may give you. Have nothing to do with spirituous liquors of any kind. Take your food as regularly as you can get it, and neither eat immoderately nor go a long time without food, if you can avoid it. Especially be careful not to eat to excess after long fasting.

I hope you will never disgrace yourself by any profaneness or obscenity, and will avoid all conversation and companions where they are practiced or allowed. Try to preserve a cheerful and contented spirit and encourage it in others. Bear hardships without grumbling and always try to do more, rather than less, than your duty. You will have occasion to be patient much oftener than to be brave.

The duty of a soldier is unquestioning obedience—but, beyond this, I hope you will cultivate a kind, respectful, and considerate temper toward your officers. I hope you are going with a love for your country and your cause, and with a determination to be faithful to every duty you have undertaken. My boy, you bear the name of one who, to the end of his honored life, never shrank from a duty, however painful, nor from a danger to which duty called him. Be sure that you do no discredit to it! Neither by cowardice, by falsehood, by impurity, by levity, nor by selfishness. Remember always your home and your friends—those who will welcome your return with pride and joy if you shall come back in virtue and honor; who will cherish your memory if, faithful and true, you have given up your life; but to whom your disgrace would cause a pang sharper than death. Remember your obligations to duty and to God. And may these thoughts keep you from temptation and encourage and strengthen you in danger or sickness. And now, my dear boy, I command you to God—and to the power of His grace. May God bless and keep you. Think of your Heavenly Father in health and in sickness, in joy and in sorrow. Go to Him for strength and guidance. You are very dear to our hearts—and your absence leaves a great place vacant in our home. If it be accorded to His will, may you come back to us in safety and honor—but whatever is before us, may His mercy and love be ever with you and His grace be sufficient for you. With deep affection,

Your father,

E. R. HOAR.

U. S. OPERATION OF RAILROADS SEEMS VERY NEAR

According to the reports from Washington the operation of the railroads by the U. S. Government does not seem far distant. Apparently it is conceded that if the pooling system about to be undertaken by the railroads themselves does not solve the problem then the government will take over the operation of the roads as one system.

Vice presidents of the eastern lines met at Washington, Monday with members of the railroad board and worked on details for a general pool in the East of as much of the entire trackage and equipment as it is considered practicable. They named a committee to be put in full charge of the pool with A. W. Thompson, vice president of the B. & O., as chairman.

The committee will establish headquarters in Pittsburgh and will sit continuously until the present congestion is cleared. Its first meeting will be held Wednesday.

The pooling plan calls for a joint use of tracks, locomotives, cars and employees in the congested centers. It will not be permitted to go so far, even the railroads heads admit, as to threaten the revenues of any line, and this is the point advocates of government operation emphasize as illustrating the need for government supervision. Under government supervision the roads could pool their profits, which under present circumstances would constitute a violation of the anti-trust act.

A pooling of profits would permit of an actual operation of all lines as one system, and it would make little difference whether one particular property paid if the roads as a whole were making money.

Government operation along the lines contemplated by the officials in favor of it would not take the actual operation from the hands of those in charge of the roads. A railroad administrator, if named by the President would be a leading railroad man and no changes would be made in the management of individual lines. But the railroad administrator, clothed with the power of the government, could take measures which the railroad war board fails to take because of the nature of the anti-trust laws, such as the elimination of economic waste due to parallel lines.

If government operation appears wise, special legislation may be asked of Congress, although some officials think the President has ample powers now under the defense act.

THIS Oldsmobile Model 45 is for the family that wants the maximum of pleasure and durability in a car that is a credit to their social and business standing—at a moderate first cost and light maintenance expense thereafter.

The high powered, perfected eight-cylinder motor puts a new zest into driving—banishes driving strain. Its remarkable flexibility makes frequent gear shifting unnecessary. The quick "getaway" and sprightly "pick-up" give an added confidence and pleasure in driving.

THE LATEST BRITISH ADVANCE

The news of the smashing assault by the British on the "Von Hindenburg line" in Northern France is cheering at a time when the people of the allied nations need all the comfort they can get.

The value of this victory, however, must not be placed too high. The attack and the advance were natural consequences of the German campaign in recent weeks. It is not improbable that the Central Powers discounted it long before the campaign against Italy was well under way.

Germany could not withdraw large forces from the western front for use southward and not anticipate unusual activity from her enemies on the west. It is very likely that part of the winter campaign of the Central Powers is to surrender a very considerable area of the captured territory and, for strategic reasons, shorten the lines of defense in preparation for the spring activities.

Germany, of course, realizes that with the arrival of the big army from America she must prepare to withstand more terrible assault than have yet been hurled against her defenses and hence the necessity of consolidating widely scattered forces and preparing reserve strength for use in times of great pressure at particular points.

The Kniser, it should likewise be remembered, is still playing his old trick of engaging the Allies where he may appear to be the weakest, while conducting another war with a specific objective. Thus he crushed Serbia and Rumania, and thus he is endeavoring to render Italy helpless during the coming spring and summer.

One may well entertain the hope that the brilliant achievements of the British arms on Tuesday are but the forerunners of many and other extraordinary advances in the very near future; but, at the same time, the people of the allied nations will, if wise, not permit this retribution of a few miles of captured territory to blind them to the fact that what has just been accomplished has scarcely made a dent in Germany, so far as the essential elements of victory are concerned.

Contrast that with the fact that Germany, in a week, practically destroyed the results of two years' work by the Italian armies in what was considered one of the most brilliant campaigns of the war.

This is not a purely pessimistic viewpoint. It is not a moan of despair. Germany will be beaten, and so bndly that she cannot fight another great war for a generation, but victory will come through dogged persistence and continued sacrifice, in the face of the rosiest signs of victory, and not otherwise.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Calarrh. Hall's Catarrh Cure is the only positive one known to the medical fraternity. Calarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and the nerves, and removing the cause by destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in their product that they offer the Highest Dodge for any case that it fails to cure. Send for list of testimonials.

PLANS MADE FOR LONG STRUGGLE

Estimates of Baker Will Cover Until Middle of 1919.

Estimates soon to be submitted by Secretary Baker will cover war costs to the middle of 1919. The close of that year represents the earliest estimate of high army and navy officers as to the end of the war and many are skeptical of a conclusion by that time. The war cost program is continuous and shaped so the struggle can be financed indefinitely. Men who have foreseen a decision by the winter of 1918 now say frankly that the Russian and Italian problems—chiefly the Russian—make it appear impossible for any victory before 1919. The outstanding thoughts in interviews obtained were:

First—Germany is likely to make a new peace move soon, perhaps secretly, instead of with the usual fanfare.

Second—A strictly military decision is next to impossible under the present war system on the west front, unless the navies take a daring blow against Heligoland, Wilhelmshaven or Zeebrugge.

Third—Russia is fully as likely to drop out of the struggle completely as she is to recuperate.

Fourth—The Italian situation as is now shapes up does not affect the general military situation critically.

Fifth—Because of recent victories, Germany would like to conclude a peace, especially as Austria is practically "down and out." The Italian offensive is designated to revive Austria's morale.

Special emphasis was laid on need for naval co-operation.

"We might as well go on with our plans just as tho we were in for 20 years of it," said one official. "A war within Germany seems slow in coming."

SERGEANT HOME ON LEAVE

Sergeant Miller Reissenger, accompanied by Sergeant McQueene, both of the regular army, but who have recently been transferred to Camp Taylor, were here on a visit last week to the family of Walter Reissenger, the former's father. Both of the men have just returned from the Mexican border, where they saw several months' service.

At Last—A One-Adjustment Cream Separator

BEFORE you buy any cream separator, come in and look at the Primrose. One adjustment is all that is necessary to keep it in perfect operating condition at all times. This adjustment is a simple one for keeping the bowl at the correct height—an adjustment that you or your wife can safely make, whenever it's necessary.

The adjustment is made from the outside of the separator by either raising or lowering the bearing containing the hardened steel point, upon which the spindle revolves. A slight turn with a screwdriver, perhaps once a year, does the work.

The Primrose is a well-constructed, close-skimming, durable cream separator. It will make a saving of \$10.00 to \$15.00 per cow in your herd every year. It is made in four sizes to separate 350 to 850 pounds of milk per hour, or from about 40 to 98 gallons. Ask for a catalogue giving a complete description, or, come in and look over the Primrose yourself.

GERMANY'S LOSS

With the declaration of Brazil of a state of war between that country and Germany, the latter can now count eighteen enemy nations arrayed against her.

Germany's losses in men and money, while they must be enormous, are in reality the least of the disasters that have befallen her. The one great disaster that that misguided country has brought upon herself, and which will have most far-reaching effect, is the loss of her standing with the nations of the world. With the exception of the countries leagued with her in this unholy war, Germany is an outcast among the nations of the earth.

Germany is not feeling the blighting effects of this ostracism now as she will feel it in the years to come. She claims that her policy of frightfulness is a necessary measure of self-defense, yet this same policy has alienated numbers of nations that but for that inhuman course would today be, if not her avowed friends, at least strictly neutral.

Peace will come after a while, and in the reckoning Germany's course will be laid bare before a just and discriminating world. We say "just and discriminating," because we believe, despite Germany's frightful defection from national humanity and honor, the large majority of the peoples of the earth are at heart humane and honorable. And the latent principles of humanity and justice that underlie and form the bed-rock foundations of all civilized nations, have revolted and will continue to revolt against the savagery displayed by that world-be-fount of "kultur."

This antipathy will take the form of a prejudice against not only Germany as a nation, but against the German blood. Not all the peoples of the earth have the finely discriminating judgment of President Wilson, and not all of them will be able to separate the acts of the German Government

from the impulses of the German people.

It is a common thing to hear, even in charity-loving America, references to "German brutality" and "German savagery." It is of no avail to tell the people that this brutality and savagery is the result of a "system" and that in reality the German people as a whole do countenance it. Human nature is prone to believe that actions speak louder than words, and Germany's nations will form the complainers' evidence when Germany comes to trial before the people of the earth.

The German bed will be a bed of thorns for generations to come.

ITALIANS HOLDING FRONT

Apparently the peril of the Italian troops guarding the Piave line and the hill country in Northern Italy against the Teutonic allies is not an end.

Large numbers of British and French reinforcements—infantry and artillery—at last have arrived upon the scene, after days of anxious waiting in which the Italians have borne the brunt of terrible fighting on both fronts and kept back the enemy from further invasion of the Venetian plain.

For eight days the allied reinforcements marched to the rescue, bringing along with them large numbers of guns and huge supply trains. All the troops are declared to be in fine fettle and eager to test their strength against the enemy.

Just where the British and French forces will be thrown into the fray has not been made known, but doubtless large numbers of them will be used to strengthen the Italian front on the north from Lake Garda eastward to the Piave, where the Austro-Germans have been making their strongest efforts to pierce the Italian line.
